PATENT  
4614-0107P

IN THE U.S. PATENT AND TRADEMARK OFFICE

Applicant: STEINAA, Lucilla t al. Conf.: 5928  
Appl. No.: 09/806,703 Group: 1644  
Filed: April 30, 2001 Examiner: DIBRINO, M.  
For: NOVEL METHODS FOR THERAPEUTIC  
VACCINATION

SUMMARY OF INTERVIEW

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

April 11, 2005

Sir:

In response to the Notice of Allowability issued on March 31, 2005, the following remarks are respectfully submitted in connection with the above-identified application.

Applicants' representative participated in a telephonic interview with Examiner Marianne DiBrino on January 6, January 28, March 7 and March 14, 2005. All of the pending claims were discussed and the interviews resulted in claims 69, 86, 89, 92 and 95 being allowed.

During the course of the interviews, the preservation of the epitopes of the extracellular part of Her2 and introduction of T-helper epitopes at a number of selected positions was discussed. These discussions led to the amendment of claim 69 to its final form. In addition, claim 89 and claim 92 were amended to include a Markush group. Finally, the Fidel Zavala et al. reference was discussed. This reference provides evidence that "P. falciparum

Appl. No. 09/806,703

CS," as recited in instant claim 92, was a term known in the art at the time the invention was made and which is equivalent to "P. falciparum circumsporozoite."

If necessary, the Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 02-2448 for any additional fees required under 37 C.F.R. § 1.16 or under 37 C.F.R. § 1.17; particularly, extension of time fees.

Respectfully submitted,

BIRCH, STEWART, KOLASCH &amp; BIRCH, LLP
